

# Bat Scavenger Hunt

You are a bat scientist for the day.

See if you can observe the following during our walk.

Check off (✓) what you find:

- A house where a bat may roost
- A good location for a bat-house
- Branches of a deciduous tree (where a red bat may live)
- Branches of a coniferous tree (where a hoary bat may live)
- A tree with loose bark (where a silver-haired bat may live)
- A dead tree with a cavity inside (where a colony of bats may live)
- A "fly way" where bats could easily travel
- A rock feature where a bat may roost
- A cave where a bat may hibernate
- A water body where bats could drink
- A good place to put up a mist-net
- A place with lots of insects (for bats to eat)
